Ask about our Luxury Watch models, features, and more!

What are the features of the Rolex Submariner?

The Rolex Submariner has the following features:

- 41 mm case, guaranteed waterproof to a depth of 300 metres (1,000 feet)
- Unidirectional rotatable bezel with graduated Cerachrom insert
- Dial with Chromalight hour markers and hands coated with a luminescent material emitting a long-lasting blue glow in dark conditions
- Triplock winding crown, with a triple waterproofness system, protected by a crown guard
- Sapphire crystal is virtually scratchproof
- Self-winding mechanical movement entirely manufactured by Rolex
- Scratch-resistant Cerachrom insert in black ceramic, numerals and graduations coated in platinum
- Paramagnetic blue Parachrom hairspring. High-performance Paraflex shock absorbers
- Bidirectional self-winding via Perpetual rotor

Does the Rolex Datejust come with a Jubilee bracelet?

Yes, the Jubilee, a supple and comfortable five-piece link metal bracelet, was designed and made especially for the launch of the Oyster Perpetual Datejust in 1945.

Is there a Rolex with dual time zones?

Yes, the Oyster Perpetual Sky-Dweller and the Oyster Perpetual GMT-Master II both allow the time in two different time zones to be read simultaneously. The Sky-Dweller allows the traveller to read the time in two different time zones simultaneously, and the GMT-Master II was designed to allow the time in two different time zones to be read simultaneously: either the local time and reference time, or the local time and the time in an alternative time zone.

how do I set the time on my Rolex GMT-Master II?

To set the time on your Rolex GMT-Master II, follow these steps:

### **Complete Setting of the Watch (carried out in two steps):**

#### **1. Setting the reference time (crown in position 3):**

- Unscrew the crown and pull it out to the second notch. The seconds hand will stop, allowing you to set the time precisely.
- Put the bezel in the neutral position (triangle on the bezel aligned with the 12 o'clock marker on the dial).
- Set the reference time using the 24-hour hand (against the graduations on the bezel) and the minute hand (against the graduations on the dial) by turning the crown in either direction. Setting the reference time also moves the conventional hour hand (local time). The reference time must be set before setting the local time.

#### **2. Setting the date and the local time (crown in position 2):**

- Pull the crown out to the first notch.
- Set the date by turning the crown in either direction. The hour hand moves in increments of one hour. The date changes when the hour hand passes midnight, in either direction, after two complete turns around the dial.
- Set the local time by turning the crown in either direction. The hour hand moves in increments of one hour. Be aware of the difference between noon and midnight (the date changes as the hour hand passes midnight).
- Push in and then screw down the crown.

### **Adjusting the Local Time (when traveling):**

- Unscrew the crown and pull it out to the first notch.
- Set the local time by turning the crown in either direction. The hour hand moves in increments of one hour. The date is linked to local time and changes automatically when the

hour hand passes midnight.

- Push in and then screw down the crown.

The 24-hour hand indicates the time in the reference time zone and allows you to distinguish daytime hours from night-time hours.

Is the Day-Date more expensive than the Datejust?

Yes, the Day-Date 40 is more expensive than the Datejust 36. The Day-Date 40 is priced at 44,200, *while the Datejust 36 is priced at 9,550.*

How often should I service my Rolex?

Rolex recommends servicing your watch approximately every 10 years, depending on the model and real-life usage.

How deep can the Rolex Sea-Dweller go underwater?

The Oyster Perpetual Sea-Dweller is guaranteed waterproof to a depth of 1,220 metres (4,000 feet).

tell me all other specifications for it

Here are the specifications for the Rolex Sea-Dweller, reference 126603:

- **Model Case:**
  - Type: Oyster, 43 mm
  - Diameter: 43 mm
  - Material: Yellow Rolesor (Oystersteel and yellow gold)

- Bezel: Unidirectional rotatable 60-minute graduated, scratch-resistant Cerachrom insert in black ceramic, numerals and graduations coated in gold
- Oyster Architecture: Monobloc middle case, screw-down case back and winding crown
- Winding Crown: Screw-down, Triplock triple waterproofness system
- Crystal: Scratch-resistant sapphire, Cyclops lens over the date
- Water Resistance: Waterproof to 1,220 metres / 4,000 feet, helium escape valve
- **Movement:**
  - Type: Perpetual, mechanical, self-winding
  - Calibre: 3235, Manufacture Rolex
  - Precision: -2/+2 sec/day, after casing
